

Why LEDs?

EXTREMELY BRIGHT

LED MINI LIGHT

COOL TO THE TOUCH

The lights of the future... LEDs are the perfect choice for spectacular, seasonal lighting displays. LEDs are the safest bulbs and use the least amount of energy. An LED can last 50 times longer than incandescent light sources.

Key features of LEDs:

- Very low energy use
Less than 0.02 amps/strand, using 90% less power
- Cool to the touch
- 10 brilliant colors
- Unique color formulation in “classic white”.
Our LEDs match the color of almost all traditional light products.
- Virtually unbreakable acrylic plastic
- Up to 100,000 hour bulb life with a 5 year warranty for seasonal use
- Our unique LEDs are Everlight™ stay-lit light sets, if one bulb fails the rest will stay lit
- Compact and low-profile design
- MTL inspected for quality assurance
